

Community Health Partnerships

Health and Safety Policy Statement

The Board's Vision

Delivering Health and Safety excellence in partnership with our customers, staff and service providers

To ensure we achieve our vision we commit to:

- demonstrating visible leadership and actively promoting a positive Health and Safety culture throughout the Company;
- consulting with employees on matters affecting Health and Safety;
- proactively identifying Health and Safety assurance threats, assessing risk, and seeking to eliminate or minimise those threats;
- clarifying responsibility for Health and Safety performance throughout the Company and promoting positive accountability;
- actively contributing to compliance with applicable legal and best practice requirements wherever we work;
- providing appropriate levels of information, instruction, training and monitoring to ensure competence and safety;
- actively work with our partners and both encourage and support them to align with our own vision of Health and Safety performance; and
- regularly review with effectiveness of this policy to ensure it remains relevant and appropriate to our activities.

Whilst the Board acknowledges that primary responsibility for ensuring a health and safe environment within which to work rests with Directors, it also recognises that the policy will be underpinned by the positive commitment of all employees and partners.
